PROFESSIONAL EXPERIENCE

SYS SHIPPING & LOGISTICS Pvt Ltd   **AUG 2024 - FEB 2025**

- Developed and launched the company's official website, which led to a 25% increase in customer acquisition through online engagement and streamlined service inquiries.
- Collaborated in a 2-person software engineering team to test and enhance internal logistics software, incorporating feedback from over 10 company employees to identify bugs and implement new features.
- Gained hands-on experience in full-stack development, real-world software testing, and cross-functional team collaboration within a logistics industry environment.

PROJECTS

Personal Projects & Portfolio Development

- Developed and deployed responsive portfolio websites using HTML, CSS, and JavaScript to showcase personal and peer work, emphasizing clean UI/UX and mobile-first design.
- Handled end-to-end deployment on free hosting platforms (e.g., GitHub Pages, Netlify), including domain setup, version control with Git, and SEO optimization.
- Built and customized multiple live portfolio websites, including my own and those of peers, highlighting individual achievements and improving their professional web presence.
